Desktops

Predator G7

The Acer Predator G7 Series attacks with gamer-savvy graphics, razor-edge processing, and ultra-fast memory technology for a wickedly powerful PC -- including enhanced features like customizable overclocking, dual LAN connectivity, and liquid cooling. Gear up with the best!

Radical design

The Acer Predator's muscular case houses its immense power. Lifting the mechanized armored face shield reveals the all-access interface for extreme gaming, complete with glowing red LEDs and claw-like optical-drive doors.

Killer performance

The Acer Predator is driven by the most elite processor for serious gaming and entertainment enthusiasts. You're guaranteed ultra-quick system-wide performance for massive multitasking. The HDD cage allows 8 TB of storage space. Enjoy faster system bootup, quick application loading, and lots of room for content creation and multimedia files.

Eyes wide open, ears perked up

Experience graphics this intense and the real world might start looking dull. The Acer Predator supports today's most advanced multiple-GPU solutions to deliver high-def 3D visuals and supreme performance. Creative® THX® TruStudio PC™ puts gamers in the middle of the action with omnipresent surround sound.

Superior gaming enhancements

The Intel® Extreme Tuning Utility (IXTU) pushes your gaming machine's performance to the max. The two-part liquid cooling system increases efficiency and longevity. New image processing techniques give games unrivalled realism. You'll also appreciate blazing file transfers and non-stop connectivity.
